

4 Courses

Design and Render a 3D Urban Duplex in SketchUp

Design and Model a 3D Pool Resort in SketchUp

Apply SketchUp to Build 3D House Models from 2D Plans

Apply Urban Scale Mapping Techniques Using SketchUp

Oct 25, 2026

EDUCBA

AMIRA SHERZODOVNA SAYITKULOVA

Urban Planning &
Spatial Mapping Expert

has successfully completed the online Specialization

Create & Evaluate Advanced SketchUp 3D Models

In this Specialization, learners developed advanced skills in 3D architectural modeling, planning, rendering, and professional presentation using industry-relevant workflows. Through hands-on projects including residential design, resort modeling, and urban-scale mapping, learners translated 2D plans into accurate, presentation-ready 3D models. The program emphasized architectural logic, spatial accuracy, visualization techniques, and structured project organization. By completing multiple real-world case studies, learners demonstrated practical design competence and produced portfolio-ready architectural projects.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
